

# Treatment aftercare

OR

THE OCEAN ROOMS

beauty

## Lashes

- You must not get your lashes wet for 24 hours
- You must not use mascara and other eye make-up must be used with caution as the use of eye make-up remover will cause the lash glue to deteriorate
- Avoid touching, rubbing and picking your lashes
- Avoid sleeping on your front
- Wash your lashes with lash shampoo (available to purchase from the salon) and brush them daily
- Never use oil-based products and creams around the eye area (including spray tans)
- Book infills for every 2 weeks; if left longer than 3 weeks, this will be charged at full set price

*Your natural lashes go through a shed cycle which will be more noticeable with extensions. Your lash cycle can vary depending on the season so you may find a variation from treatment to treatment in how long your lashes last*
